

# FLOWERPOTS

## Materials

- Clay or wooden flowerpots
- Paint
- Decorations: sequins, puffy paint, ribbon, glue, beads, foam pieces, pipe cleaners, glitter, pom-poms...

## Instructions

Decorate flowerpots! A cute phrase to include: *"Growing in Faith.."*

## Notes

Remind campers that the inside of the flowerpot will not be seen, and does not need to be decorated.

I thought this could also spur a cool conversation about ways in which we grow in our faith- and also tie in the parable of the mustard seed as well.

Cost wise, these flowerpots are 3/\$1.00 (HobbyLobby)- I don't know what the budget looks like, but I wanted to throw that out there. Hopefully buying them in bulk from a supplier would drive the price down some. Wooden flowerpots are probably cheaper as well, however they don't look as polished or feel as nice.
